NOTES:

Courses in **bold** must be completed before the fall of the junior year. The exact sequence shown is NOT a requirement for entry into the program. Courses CAN be in progress during the semester of application to the MLS Program (spring sophomore year).

Admission to the MLS Program is competitive, and admission to the University does not guarantee acceptance to begin upper-division MLS courses. Contact the program director for additional clarification.

Transfer students and medical laboratory technicians should seek individual advisement from program faculty to prevent duplication of course work and/or experiences.
