The **Publish to Canvas** wizard is available in Respondus from the **Preview & Publish** menu and it guides a user through the steps of publishing a quiz to MyClasses Learn. You must already have a Canvas course in order to use this task. The following steps will guide you on how to add a server and publish an exam to a single Canvas Course.

Publishing an Assessment to Canvas

- 1. On the Start tab, ensure that the personality is set to **Instructure Canvas**. If this personality is not selected, use the drop down box to select the Blackboard personality.
- 2. Open the assessment in Respondus and then click on the **Publish & Preview** tab.
- 3. Click **Publish to Canvas**.

4. Select the Publish Wizard.

Carryas Screet.		-	
Settings:	- add new server - Choose "add new server" or an existing server above	Edit Setting	s
2. Press [Next] to con	, inect to server		

- 5. Select MyClasses Canvas as the server. If you do not see a server listed:
 - a. Select the option to **add new server** from the drop down list.
 - b. Select Yes to select preconfigured server settings and click Next.

c. Follow the Preconfigured Server Settings window and enter your Username and Password and then click **Next**.

Preconfigured Server Settings Wizard	x
Success! The server settings have been downloaded for: Salisbury University 1. Enter a name to describe this Canvas server (e.g. "My Canvas Courses") Canvas	
2. Enter your login information for this Canvas server User name Password Save my User Name and Password on this computer. (If this is a shared computer, don't select this box!) Bespondus can nun a connection test using the above settings	
to make sure it can communicate with your online course • Run connection test	
C Skip connection test	
Back Next Cancel Help	

- d. When the server settings have been downloaded, click Finish.
- e. The Instructure Canvas Authorization page will pop-up, enter your username and password for Canvas.
